NovaPharm Healthcare Ltd

Enterprise Intelligence Platform

Process Flowcharts & Algorithm Book

Version 3.0 — June 2026 — 6 Algorithms, Fully Aligned

Algorithm 1 Master Order Processing Flow

Algorithm 2 Three-Pillar Sourcing Selection

Algorithm 3 AI Demand Forecasting Pipeline

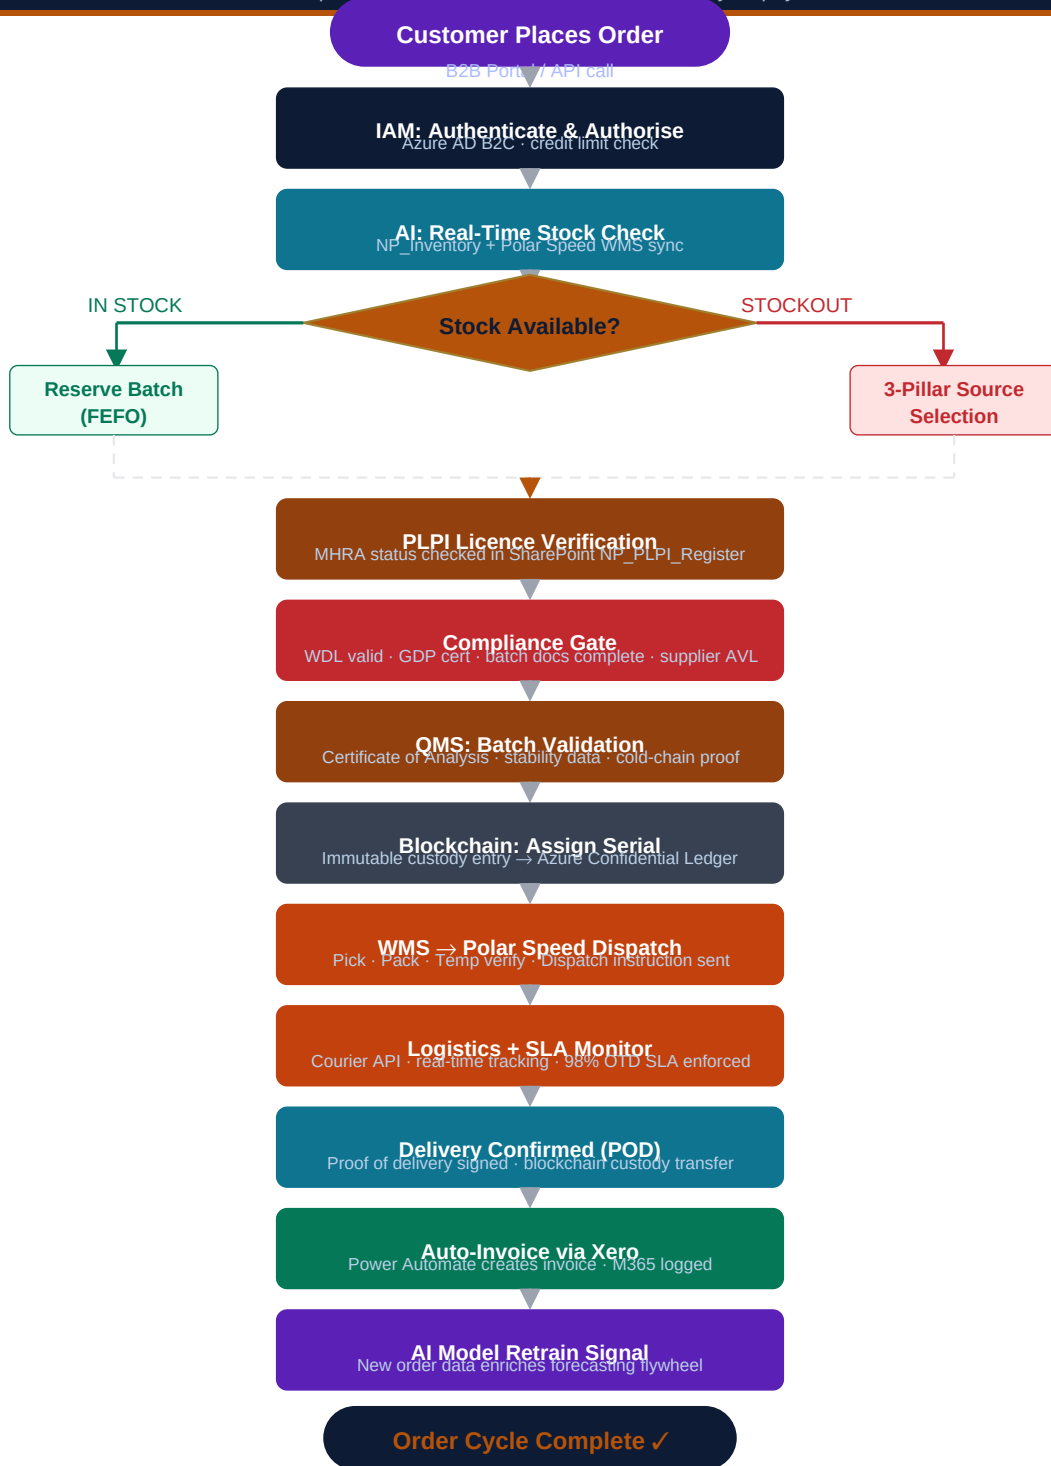

Algorithm 4 PLPI Application Process

Algorithm 5 Full System Integration Map

Algorithm 6 Adverse Event 72-Hour Recall

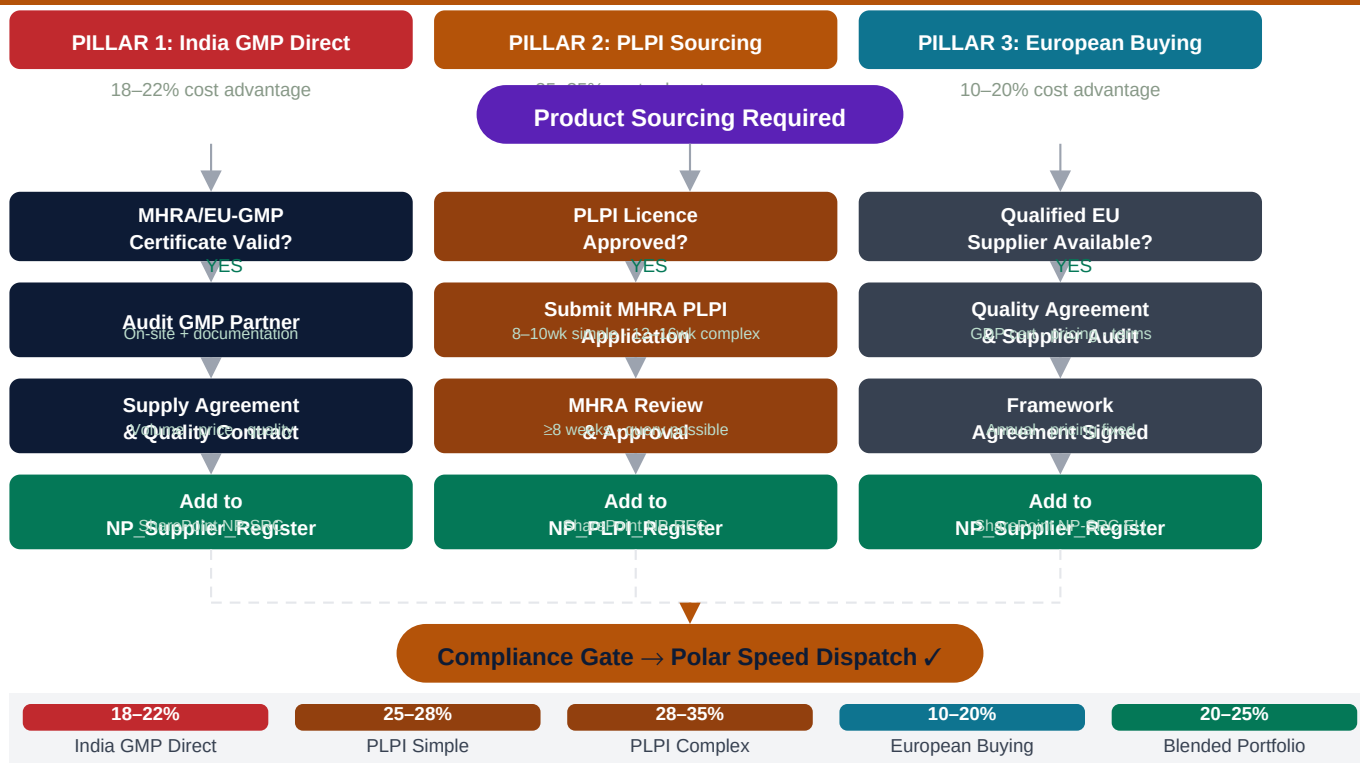

ALGORITHM 1 — Master Order Processing Flow

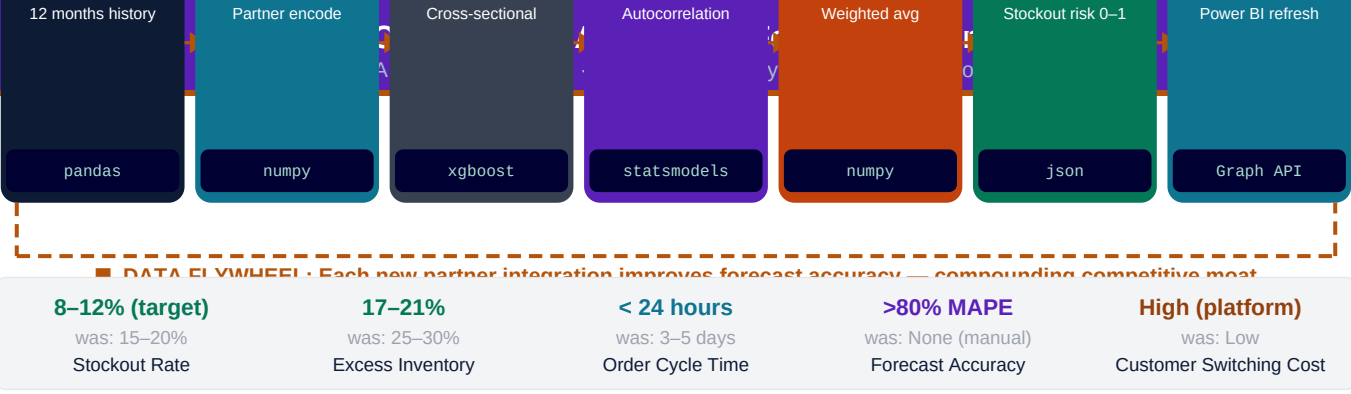

Customer order → compliance → Polar Speed dispatch → delivery → payment → AI retrain

ALGORITHM 2 — Three-Pillar Sourcing Selection Logic

How NovaPharm selects India GMP / PLPI / European buying for each product · blended 20–25% cost advantage

ALGORITHM 4 — PLPI Application & Approval Process

MHRA Parallel Import · Simple 8–10 weeks · Complex/Oncology 12–16 weeks · Post-Windsor UK-wide Jan 2025

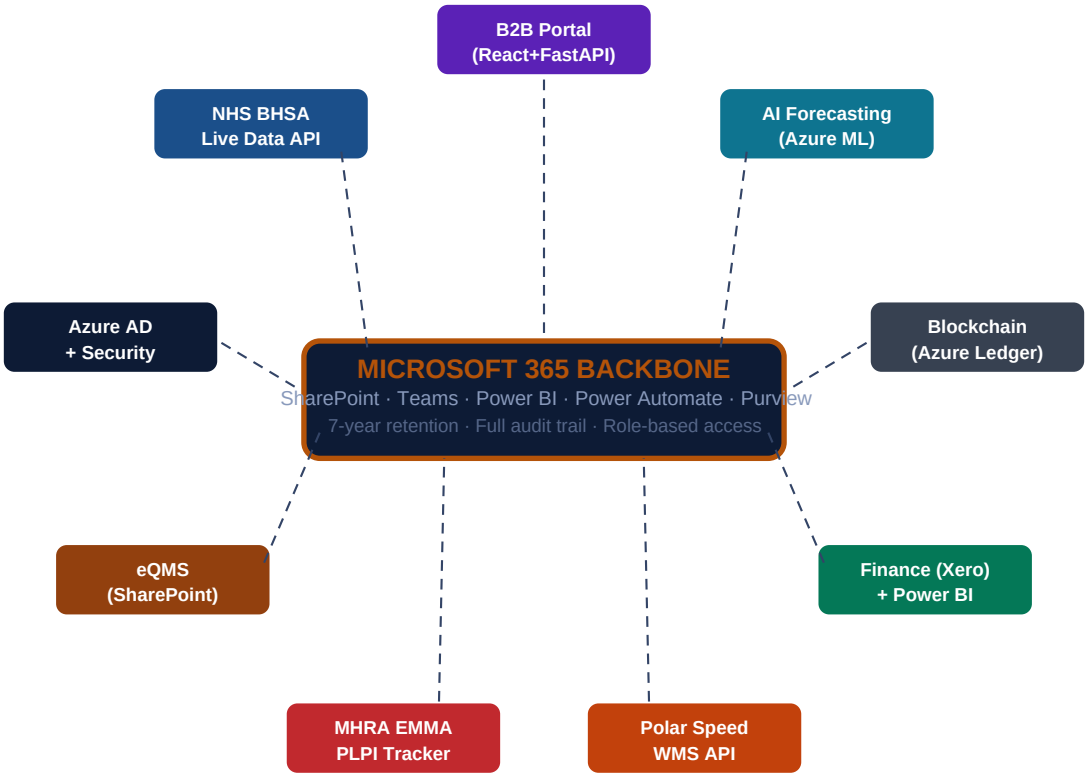

Timeline Comparison: ● Simple: 8–10 weeks ● Complex (Oncology): 12–16 weeks
Each PLPI approval = 6–12 months competitive lead over incumbents · Target: 25–35 SKUs by Year 3 = regulatory moat

DIAGRAM 5 — Full System Integration Map

All 17 modules connect through Microsoft 365 SharePoint backbone · every module writes to one auditable store

NHS Supply Chain

Innovate UK Grants

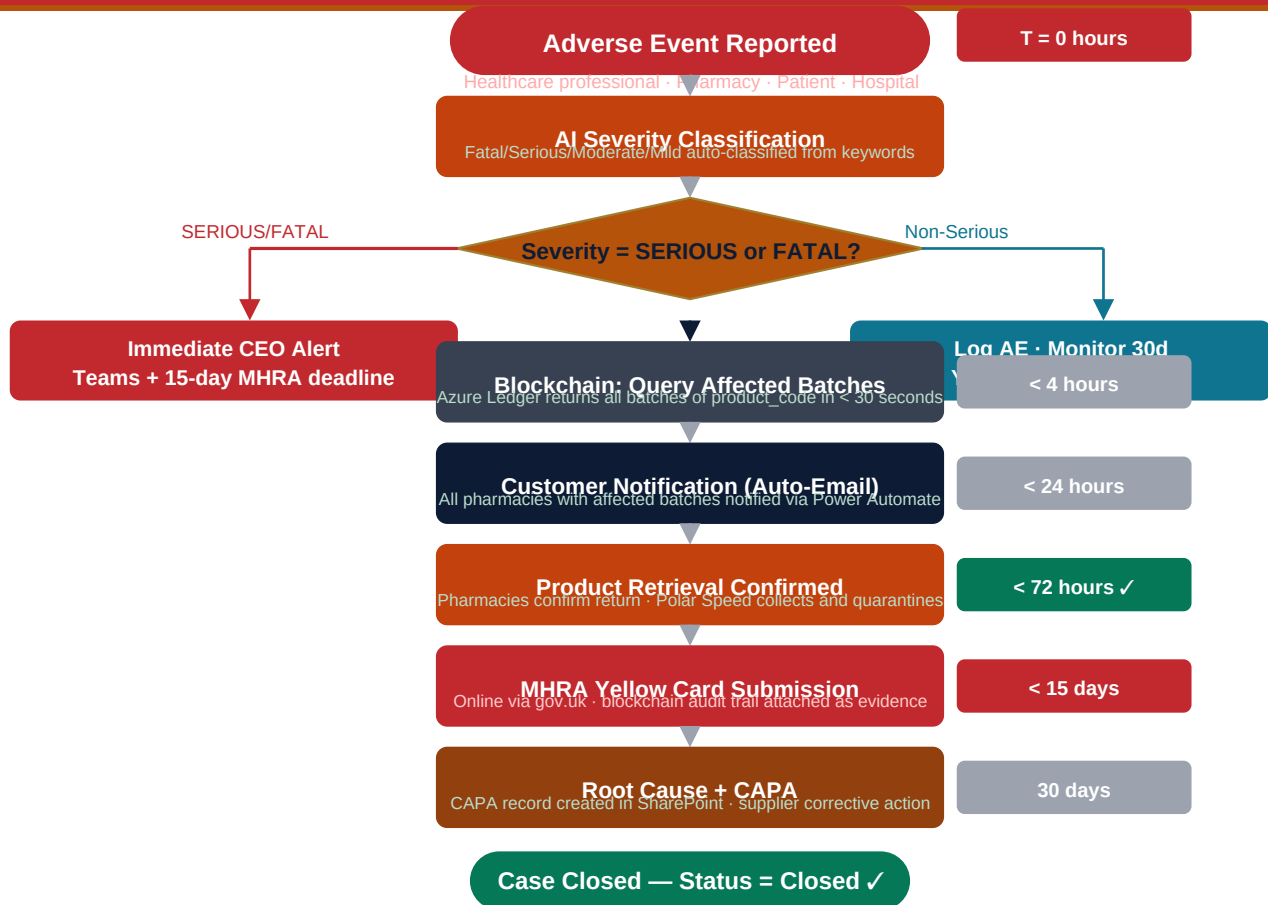

India GMP Manufacturers

EudraVigilance
MHRA Yellow Card

ALGORITHM 6 — Adverse Event & 72-Hour Recall Procedure

Target: 72-hour recall vs 7–10 day industry standard · MHRA Yellow Card within 15 days · Zero-tolerance counterfeit policy

Industry Standard: 7–10 DAYS

Manual lot ID · phone notifications · paper trail

NovaPharm Target: 72 HOURS ✓

Blockchain auto-identifies · Power Automate notifies
